

## Accounting

# 6 Accounting Trends to Watch Out For

The dynamic accounting space is evolving at pace. So much so, that accountants often feel that every time they blink there's a new process or technology to learn.

As new innovations emerge and old ways of doing things become obsolete, the need for automation and high-tech systems becomes ever-more apparent.

**Here are 6 trends to look out for – and embrace – before the end of 2022.**

1. Remote Working
2. Data Security
3. Automation and AI
4. Blockchain
5. Online Marketing
6. Cloud-Based Operations
